

Instructions: How to set the tent up:

In order that you can use this product more safely and get full play to its functions and features, please read the operating instructions carefully before using this unit and keep it properly. For safety reasons, this product is not suitable for use in bad weather, we recommended use it in the weather that the wind-force no more than 5 grade.

It need 2 person at least to act the steps below:

1. prepare enough electric cables and sockets; a clean pad if you have. if you don't have it, please clean your ground up and make it no dust and spikes. also prepare some clean sand, used to fill sandbags (if the weather is calm, also can reduce the number of sandbags, every corner 1 sandbags maybe)
2. Unfold the package, straight it, make it top up and bottom down. Find the air inlet (at the center of the side wall
3. there have loops on both sides. 2 zippers on the left and right wall. tie the end of rope to the anchors on the wall. Close all zippers.
4. Connect the fan outlet with the inlet pipe. fasten it. everyone stand around the tent. Each person pulls the rope and then plug in the power.
5. Everybody pull the rope and help the tent to stand up. This process can last for 3-5 minutes. Please be patient. fasten sandbags to the loops on the both side bottom (or open the zipper, put the sandbag inside bottom to make it stand stablely
6. After the tents stand up, tie the rope to the anchor on ground (if no, use remaining sandbags as the anchor) .and fasten the other end of the rope to the anchors on the ground.

How to pack:

1. Everyone Stand around the tent. Then turn off the fan. Open each zippers and deflate it.
2. Press the air out, then make one long wall as the bottom and straight it, and Put all the other faces above the side. fold and fold again.
3. tied up with a rope. Put in the storage bag.
